Ear Mold for Bluetooth Device

To help you stay on the move and keep in touch, experience high quality sound with a sleek custom ear mold adapted to your Bluetooth device. This will allow you complete comfort and you will be able to enjoy enhanced audio quality so every conversation is crisp and clear. Manufactured using a soft high grade silicone material in the color of your choice. The Bluetooth earmold box can be located under the specialty custom earmold section on our updated order forms. Please send in customer's Bluetooth device along with ear impression when ordering this item.

Distracted Driving Law - Overview

It is very important to stay safe when driving while also abiding the law. Canada's Provinces have passed a ban on the use of handheld devices while driving. Distracted driving legislation has been reinforced across Canada, with restrictions similar to those being adopted in the United States. All Canadian provinces have outlawed the use of handheld cell phones while driving.
